About me

Self-taught web developer, passionate about programming and follower to the functional paradigm. Specialized in creating and improving digital interfaces, with a focus on maintaining complex websites by troubleshooting, implementing new features, and ensuring optimal performance.

I have a deep understanding of the overall front-end web ecosystem, with strong skills in HTML, CSS, and JavaScript, backed by significant experience in frameworks like React. Currently, exploring Golang to expand my skill set.

Education

2014 - 2017 IPU Presencia de Celia
High School

Skills

HTML / CSS

JavaScript / TypeScript

React

Go

SQL

These bars just represents the difference in knowledge between the skills.
The percentage itself means nothing.
